V. HEALTH HAZARD INFORMATION

Threshold limit value:	Not established
Effects of overexposure:	No significant hazards at ambient temperatures
Emergency first aid procedures:	Not applicable

VI. REACTIVITY DATA

Stability of compound:	Stable at ambient temperature; prolonged heat above 100 C will cause its decomposition emitting hydrogen chloride
Chemical Incompatibility:	Compatible with other stable compounds
Decomposition products:	Hydrogen chloride, hydrocarbons, oxides of carbon and organo-tins may be produced when burned
Hazardous polymerization:	Will not occur

VII. ENVIRONMENTAL PROTECTION PROCEDURES

Spill Response:	Vacuum or sweep into a container
Waste disposal method:	Landfill in accordance with local, state and federal regulations
Reportable quantities:	Not applicable

VIII. SPECIAL PROTECTION INFORMATION

Ventilation:	No special ventilation required
Respiratory protection:	No special respiratory protection required
Eye Protection:	Safety glasses when sawing
Gloves:	No special gloves required
